School Accountability Report Card

Mission Statement

Our mission is to provide world-class, educational opportunities for all students to become life-long learners in a safe, healthy, and effective learning environment through a collaborative commitment of students, family, school district staff, and community.

School Profile

Our school is a K-4 elementary school with nearly 600 students. All K-3 classes operate from 8:15-2:00, and fourth grade is in session from 8:15-2:55. For grades K-3, each grade has six classrooms, fourth grade has four classes, and we have two special education teachers who work with students who have learning disabilities.

A well-rounded education is our goal, and we believe subjects like art, music, and physical education are important parts of a child's education, as well as all of the traditional academic disciplines.

School Leadership

Staff Meetings are held each month to discuss issues of instruction and school programs. After-school tutoring and summer school programs have been implemented to help serve at risk students. Grade level meetings are also held monthly to allow for a free exchange of ideas between teachers at the same grade level. A school leadership team made up of a representative from each grade level meets with the Principal on a regular basis to discuss academic needs, concerns, professional development, and changes necessary for school improvement.

Parent Involvement

School Site Council is an opportunity for parents to be involved in the decisions about programs operating at school and funding of those programs. School Site Council members have a chance to voice their opinions about what is working or not working at school, so that school improvements can be made.

Parent Literacy Nights are held periodically during the school year to help parents work with their children in the areas of reading, writing, and math. Take home activities have been shared and authors have been invited to talk with students and parents, and to encourage the reading-writing connection. An active PTO is planned for the 2008-09 school year to help out with student activities, family nights, and other projects that it will consider.

Contact Information

Parents or community members who wish to participate in leadership teams, school committees, school activities, or become a volunteer may contact the Armona Elementary at (559) 583-5010.

Discipline & Climate for Learning

The District has a Board-approved K-8 Discipline Policy that sets standards for behavior and classroom learning. This policy not only provides consequences for unacceptable behavior and lack of effort in the classroom, but it also provides awards and special activities for good behavior and academic achievement in school.

The assistant principal addresses discipline issues and oversees yard supervision. He is also working to assess and monitor the learning of our ELL students.

Staff Development

Staff members build teaching skills and concepts by participating in many conferences and workshops throughout the year, then sharing their experiences and knowledge with district colleagues. The district dedicates five days to staff development annually.

Teacher Assignment

Armona Union Elementary recruits and employs the most qualified credentialed teachers. For the 2007-08 school year, Armona Elementary had 29 fully credentialed teachers who met all credential requirements in accordance with State of California guidelines.

Teacher misassignments reflect the number of placements within a school for which the certificated employee in the teaching or services position (including positions that involve teaching English Learners) does not hold a legally recognized certificate or credential. Teacher vacancies reflect the number of positions to which a single designated certificated employee has not been assigned at the beginning of the year for an entire year.

Highly Qualified Teachers

The Federal No Child Left Behind Act requires that all teachers in core subject areas meet certain requirements in order to be considered as "Highly Qualified." Minimum qualifications include: possession of a Bachelor's Degree, possession of an appropriate California teaching credential, and demonstrated competence in core academic subjects.

Instructional Materials

Armona Union Elementary School District sets a high priority upon ensuring that sufficient and current textbooks and materials are available to support the school's instructional program. Armona Union Elementary School District held a Public Hearing on September 25, 2008, and determined that each school within the District has sufficient and good quality textbooks, instructional materials, visual and performing arts textbooks, or science lab equipment, pursuant to the settlement of *Williams vs. the State of California*.

All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the State Department of Education, making the textbooks used in the school the most current available.

Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information about the quality, currency, and availability of the standards-aligned textbooks used at the school.

Additional Internet Access/Public Libraries

AUESD shares a satellite library with the County of Kings. The library is used by Parkview Middle School during the day and is kept open until 4 o'clock three days per week and until 6 o'clock two days per week. The library is accessible to both school children and the public. It has 13 computers of which all are connected to the Internet.

Counseling & Support Staff

It is the goal of Armona Elementary to assist students in their social and personal development as well as academics. The school gives special attention to students who experience achievement problems, difficulty coping with personal and family problems, trouble with decision making, or handling peer pressure. The table lists the support service personnel available at Armona Elementary.

School Facilities

Armona Elementary School was built in 1952 and modernized in 1988. The school is situated on 9.9 acres and facilities span 34,000 square feet. They include 16 permanent classrooms, 17 portable classrooms, administrative offices, a library, a cafeteria, and playgrounds.

The facility strongly supports teaching and learning through its ample classroom and playground space. The playground area is spacious for students to use during recess and P.E. times. A new portable classroom is being ordered for enrollment growth. Facility information was current as of January 9, 2008.

Maintenance and Repair

Armona Elementary is well maintained and safety is stressed continually. District maintenance supervisors are proactive and conduct inspections at school sites on a continual basis. Repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. The district maintenance staff has indicated that 100% of all toilets on school grounds are in working order.

Cleaning Process and Schedule

The district has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office or at the district office. Currently all schools are on a daily cleaning schedule. The site administration team works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school. Two custodians do an excellent job keeping the site clean and responding quickly to maintenance work requests.

Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. For the 2008-09 school year, the District budgeted \$96,004 for the deferred maintenance program. This represents 1.0% of the District's general fund budget.

Deferred Maintenance Projects

For the 2008-09 school year, the district's governing board approved deferred maintenance projects for this school that will result in new floor covering, new HVAC systems, and electrical upgrades. The district's complete deferred maintenance plan is available at the district office.

Safe School Plan

Safety of students and staff is a primary concern of Armona Elementary School. The school is in compliance with all laws, rules, and regulations pertaining to hazardous materials and State earthquake standards. A committee of staff and community members worked together to put together a District Safety Manual which covers general safety and emergency procedures. It also includes injury and illness prevention and pest management, and has some standard forms to complete for various safety and training documentation purposes.

In 1998, the Comprehensive Safety Plan was developed by the District in consultation with local law enforcement in order to comply with Senate Bill 187 of 1997. The plan provides students and staff a means to ensure a safe and orderly learning environment. Components of the Comprehensive Safety Plan include child abuse reporting procedures, teacher notification of dangerous pupil procedures, disaster response procedures, procedures for safe ingress and egress from school, sexual harassment policies, and dress code guidelines. The plan was last updated and reviewed with school staff in August 2008. A copy of the plan is available to the public at the school and district offices.

District Expenditures

At the time this report was published, the most recent financial and salary comparison data from the State of California was for the 2006-07 school year. The Expenditures Per Pupil table provides a comparison of a school's per pupil funding from unrestricted sources with other schools in the district and throughout the State.

Federal Intervention Program

Schools and districts receiving Federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English/Language Arts or Mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP.

Adequate Yearly Progress

No Child Left Behind (NCLB) is a federal law enacted in January 2002 that reauthorized the Elementary and Secondary Education Act (ESEA). It mandates that all students (including students who are economically disadvantaged, are from racial or ethnic minority groups, have disabilities, or have limited English proficiency) in all grades meet the state academic achievement standards for Mathematics and English/Language Arts by 2014.

Schools must demonstrate "Adequate Yearly Progress" (AYP) toward achieving that goal. The Federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) requirements:

- Participation rate on the state's standards-based assessments in English/ Language Arts (ELA) and Mathematics.
- Percent proficient on the state's standards-based assessments in ELA and Mathematics.
- API as an additional indicator.
- Graduation rate (for secondary schools).

There are several consequences for schools that do not meet the AYP standards, including additional tutoring and replacing of staff. Students would also be allowed to transfer to schools (within their district) that have met their AYP, and the former school would be required to provide the transportation to the new site. Results of school and district performance are displayed in the chart.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800.

This table displays the school's statewide and similar schools API ranks. These ranks are published when the Base API is released each March. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

California Standards Test

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades 2 through 11; science in grades 5, 8, and 9 through 11; and history-social science in grades 8, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found at <http://star.cde.ca.gov>

Data Sources

Data within the SARC was provided by Armona Union Elementary School District, retrieved from the 2007-08 SARC template, and/or located on Dataquest (<http://data1.cde.ca.gov/dataquest>). Dataquest is a search engine, maintained by the California Department of Education (CDE), which allows the public to search for facts and figures pertaining to schools and districts throughout the state. Among the data available, parents and community may find information about school performance, test scores, student demographics, staffing, and student misconduct/intervention.
