**School Mission Statement**

At Allison Elementary School we believe all students can learn and grow to be responsible in a safe and respectful environment. We are very proud of our school and the unique programs we offer. We focus on strong academic achievement for all students. We provide a safe, nurturing environment that encourages academic excellence and social responsibility through a standards-based, technologically enhanced curriculum that is supported by respectful parents, staff and community.

**District & School Profile**

Twin Rivers Unified School District is California's newest unified school district, combining the former North Sacramento, Del Paso Heights, Rio Linda Union, and Grant Joint Union High School Districts. Started in the 2008-09 school year, Twin Rivers Unified School District is located in Sacramento County and has 34 elementary schools, six junior high schools, five high schools, six charter schools, and seven alternative education schools.

Allison Elementary School had a beginning enrollment of 370 students in grades kindergarten through six for the 2008-09 school year. Student demographics are illustrated in the chart.

Student Enrollment by Ethnic Group	
2008-09	
	Percentage
African American	15.1%
American Indian	0.3%
Asian	3.5%
Caucasian	35.1%
Filipino	1.1%
Hispanic or Latino	31.4%
Pacific Islander	1.9%
Multiple or No Response	11.6%

**Discipline & Climate for Learning**

Students at Allison Elementary are guided by specific rules and classroom expectations that promote respect, cooperation, courtesy and acceptance of others. BEST (Building Effective Schools Together) rules and expectations were developed and modified to define expected student behavior.

The suspensions and expulsions for the past three years are illustrated in the chart. Suspensions are reported as total number of incidents, not students suspended, as some students may have been suspended on multiple occasions. Suspensions and expulsions rates reflect incidents divided by total enrollment. *Since the district opened in the 2008-09 school year there is no district data reported for two of the last three years. Being a new district it would not be appropriate to assign the performance of any of the old districts to the new district.*

## School Enrollment & Attendance

School districts receive financial support from the state for the education of the students they serve based on how many students attend each day. Most importantly, attendance is critical to academic achievement and regular daily attendance is a priority at Allison Elementary School. Student attendance is carefully monitored to identify those students exhibiting excessive absences.

Attendance, tardy, and truancy policies are clearly stated, consistently enforced, and consequences fairly administered. Parents are advised of their responsibilities, including proper notification of when and why students are absent. The school monitors student attendance very closely, makes phone calls to parents on a daily basis, and will send letters home if absences become a problem.

Students are referred to the School Attendance Review Board (SARB) when they have persistent attendance and behavior problems in school, and when the normal avenues of classroom, school, and district counseling are not effective.

This chart illustrates the enrollment trend by grade level for the past three school years.

## Class Size Reduction

In 1996, state legislature approved implementation of the Class Size Reduction (CSR) program that provides funding to hire additional teachers to assist schools in reducing K-3 class sizes. Warren A. Allison began implementing CSR for grades kindergarten through three in 1996-1997. The table displays the percentage of K-3 classrooms that participated in CSR for the past three school years.

## Curriculum Development

All curriculum development at Allison Elementary School revolves around the California State Content Standards and Frameworks. The writing and implementation of the Twin Rivers Unified School District's curriculum is an ongoing process. The district's curriculum guides are updated regularly to align with the state standards, district goals, and the statewide assessment program. Teachers align classroom curriculum to ensure that all students either meet or exceed state proficiency levels.

## Instructional Materials

Twin Rivers Unified School District held a public hearing in October 2009, and determined that each school within the district had sufficient and good quality textbooks, instructional materials, and science lab equipment pursuant to the settlement of *Williams vs. the State of California*. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All teachers have the opportunity to review the materials. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

District-Adopted Textbooks

## Additional Internet Access/Public Libraries

For additional research materials and Internet availability, students are encouraged to visit the public libraries located in the city and county of Sacramento, which contain numerous computer workstations. Visit [www.saclibrary.org](http://www.saclibrary.org) for more information and directions to the nearest branch.

## Counseling & Support Staff

In addition to academics, the staff at Allison Elementary School strives to assist students in their social and personal development. Staff members are trained to recognize at-risk behavior in all students. The school values the importance of on-site counseling and has procedures in place to ensure that students receive the services they need. The table lists the support service personnel available at Allison Elementary School.

Some students have exceptional academic needs that can be met through the Resource Specialist Program (RSP). RSP students receive additional instruction in identified academic areas based on Individual Education Plans (IEPs). The school employs a full-time RSP teacher who provides instruction within the general education classroom and through pull-out groups.

Allison Elementary School teachers are sensitive to the unique needs of English Language Learner (ELL) students. ELL students are identified early and placed in classrooms where the teacher possesses the necessary certification for second language instruction (e.g. CLAD).

A Gifted and Talented Education (GATE) program is available for those students who qualify, where students receive challenging supplemental instruction.

## Parent Involvement

We encourage all parents to be involved in their child's education at Allison School. Our School Site Council (SSC) is involved with the development, implementation, and monitoring of the School Plan. The SSC works in conjunction with the English Learner Advisory Committee (ELAC) to develop a school plan and budget that meets the needs of students at the school. The Allison PTA has offered a variety of fundraising activities to support the purchase of playground equipment and health bar, as well as to sponsor Gater Store and other school activities.

## Contact Information

Parents or community members who wish to participate in leadership teams, school committees, school activities, or become a volunteer may contact the Warren A. Allison Elementary at 566-1810.

## Data Sources

Data within the SARC was provided by Twin Rivers Unified School District, retrieved from the 2008-09 SARC template, and/or located on Dataquest (<http://data1.cde.ca.gov/dataquest>). Dataquest is a search engine, maintained by the California Department of Education (CDE), which allows the public to search for facts and figures pertaining to schools and districts throughout the state. Among the data available, parents and community may find information about school performance, test scores, student demographics, staffing, and student misconduct/intervention.

## California Standards Test

The California Standards Test (CST), a component of the STAR Program, is administered to all students in the spring to assess student performance in relation to the State Content Standards. Student scores are reported as performance levels: Advanced (exceeds state standards), Proficient (meets standards), Basic (approaching standards), Below Basic (below standards), and Far Below Basic (well below standards). The combined percentage of students scoring at the Proficient and Advanced levels in English/Language Arts, Math, and Science, for the most recent three-year period, is shown. *Since the district opened in the 2008-09 school year there is no district data reported for two of the last three years. Being a new district it would not be appropriate to assign the performance of any of the old districts to the new district.* For results on course specific tests, please see <http://star.cde.ca.gov>.

## Federal Intervention Program

Schools and districts receiving Federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English/Language Arts or Mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. *Since the district opened in the 2008-09 school year there is no district data reported for two of the last three years. Being a new district it would not be appropriate to assign the performance of any of the old districts to the new district.*

## Physical Fitness

In the spring of each year, Allison Elementary School is required by the state to administer a physical fitness test to all students in fifth grade. The physical fitness test is a standardized evaluation that measures each student's ability to perform fitness tasks in six major areas. Students that meet or exceed the standards in all six fitness areas are considered to be physically fit or in the healthy fitness zone (HFZ). During the 2008-09 school year, 10.9% of fifth grade students were in the HFZ.

## National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., basic, proficient, and advanced) and the participation of students with disabilities (SD) and English language learners (ELL) is reported based on three levels (identified, excluded, and assessed). Detailed information regarding the NAEP results for each grade, performance level, and participation rate can be found on the National Assessment of Educational Progress Web page at <http://nces.ed.gov/nationsreportcard/>.

The first table displays the National Assessment of Educational Progress Results for reading (2007) and mathematics (2009) for grades four and eight by scale score and achievement level.

NOTE: Only a sample group of California's schools and districts participate in the NAEP testing cycle. Therefore, students in any particular school or district may not be included in these results. The NAEP reflects state test results and is not reflective of either the LEA or the individual school.

## Academic Performance Index

The Academic Performance Index (API) is a score on a scale of 200 to 1,000 that annually measures the academic performance and progress of individual schools in California. The state has set 800 as the API score that schools should strive to meet.

*Statewide Rank:* Schools receiving an API Base score are ranked in ten categories of equal size (deciles) from 1 (lowest) to 10 (highest), according to type of school (elementary, middle, or high school).

*Similar Schools Rank:* Schools also receive a ranking that compares that school to 100 other schools with similar demographic characteristics. Each set of 100 schools is ranked by API score from 1 (lowest) to 10 (highest) to indicate how well the school performed compared to similar schools.

## Adequate Yearly Progress

No Child Left Behind (NCLB) is a federal law enacted in January 2002 that reauthorized the Elementary and Secondary Education Act (ESEA). It mandates that all students (including students who are economically disadvantaged, are from racial or ethnic minority groups, have disabilities, or have limited English proficiency) in all grades meet the state academic achievement standards for Mathematics and English/Language Arts by 2014. Schools must demonstrate "Adequate Yearly Progress" (AYP) toward achieving that goal. The Federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) requirements:

- Participation rate on the state's standards-based assessments in English/Language Arts (ELA) and Mathematics.
- Percent proficient on the state's standards-based assessments in ELA and mathematics.
- API as an additional indicator.
- Graduation rate (for secondary schools).

There are several consequences for schools that do not meet the AYP standards, including additional tutoring and replacing of staff. Students would also be allowed to transfer to schools (within their district) that have met their AYP, and the former school would be required to provide the transportation to the new site. Results of school and district performance are displayed in the chart. *Since the district opened in the 2008-09 school year there is no district data reported for two of the last three years. Being a new district it would not be appropriate to assign the performance of any of the old districts to the new district.*

## Teacher Assignment

Twin Rivers Unified recruits and employs the most qualified credentialed teachers. For the 2008-09 school year, Allison Elementary had 17 fully credentialed teachers who met all credential requirements in accordance with State of California guidelines.

Teacher Credential Status				
	School			District
	06-07	07-08	08-09	08-09
Fully Credentialed	21	19	17	1489

Teacher misassignments reflect the number of placements within a school for which the certificated employee in the teaching or services position (including positions that involve teaching English Learners) does not hold a legally recognized certificate or credential. Teacher vacancies reflect the number of positions to which a single designated certificated employee has not been assigned at the beginning of the year for an entire year.

## Highly Qualified Teachers

The Federal No Child Left Behind Act requires that all teachers in core subject areas meet certain requirements in order to be considered as "Highly Qualified" no later than the end of the 2006-07 school year. Minimum qualifications include: possession of a Bachelor's Degree, possession of an appropriate California teaching credential, and demonstrated competence in core academic subjects.

NCLB Compliant Teachers

District	97.4%	2.6%
High-Poverty Schools in District	98.4%	1.6%
Low-Poverty Schools in District	0.0%	0.0%

## Teacher Evaluation & Professional Development

A constructive evaluation process promotes quality instruction and is a fundamental element in a sound educational program. Evaluations and formal observations are designed to encourage common goals and to comply with the state's evaluation criteria and district policies. Temporary and probationary teachers are evaluated annually and tenured teachers are evaluated every other year.

Evaluations are conducted by an administrator, who has been trained and certified for competency to perform teacher evaluations. Evaluation criteria are: Demonstrates Effective Instructional Techniques and Strategies, Establishes and Maintains Suitable Learning Environment, Adherence to District Curricular Objectives, Demonstrates Effective Instructional Techniques and Strategies, Promotes Students' Progress Toward District Standards of Expected Student Achievement, Fulfills Instructional Duties and Professional Responsibilities.

Teachers and other certificated staff members build teaching skills and develop educational concepts through participation in conferences and workshops throughout the year. In the 2008-2009 school year, the Twin Rivers District offered 3 non-student professional development days for elementary teachers and 5 non-student days for secondary teachers. The professional development sessions focused on a broad range of topics including California state core subjects, research-based differentiated teaching strategies, technology and increasing student achievement.

## School Leadership

Leadership at Allison (Warren A.) Elementary is a responsibility shared between district administration, the principal, instructional staff, students, and parents. The district's emphasis is on a well-balanced and rigorous core curriculum at all grade levels. Instructional programs are aligned with state and district standards. Leadership duties were assumed by Principal Vivian Riley. Staff members and parents participate on various committees that make decisions regarding the priorities and direction of the school plan to ensure the instructional programs are consistent with students' needs and the school plan complies with district goals.

## School Facilities & Safety

The current facilities were built in 1963. There are 21 classrooms, a multipurpose room, a library/media center, a staff lounge, and a playground.

School safety is a primary concern of Allison Elementary. The school is always in compliance with all laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. Each classroom and office area has an Emergency Preparedness Guide. The school at large has regular fire drill, lockdown, and duck and cover procedure rehearsals. In recent years we have increased playground supervision, which has reduced the student to supervisory ratio on the yard. Our school can readily dispatch law enforcement through our district's Safe School Policy Officer Program. The safety plan was updated and reviewed with staff in September 2009.

The table shows the results of the most recent school facilities inspection. While reviewing this report, please note that even minor discrepancies are reported in the inspection process. The items noted in the table have been corrected or are in the process of remediation.

### Cleaning Process and Schedule

The district governing board has adopted cleaning standards for all schools in the district. All schools are on a regular cleaning schedule. Each classroom is swept or vacuumed and the trash emptied. The cafeteria, gym, and all restrooms are cleaned daily. Grounds are groomed on a rotating basis, with trash, lawn, and plumbing issues addressed daily.

### Maintenance and Repair

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. Two full-time custodians ensure that all classrooms and facilities are in adequate condition.

A work order process is used to ensure efficient service that emergency repairs are given the highest priority. At the time of publication, 100% of latrines are in complete working order.

### Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, paving and floor systems. For the 2009-10 school year, the district has budgeted \$950,000.00 for the deferred maintenance program. This represents 0.39% of the district's general fund budget.
